COVID-19 Q&A
March 22, 2020

Events

- Are trips and events being postponed or canceled? Or does it depend on the event/trip?
  - All events – where possible – will be re-scheduled.
- Is the GESI program still happening it not?
  - The home campus in Evanston will be deciding on this program shortly.

Travel Restrictions

- I heard the Doha airport is shut down, what does this mean? If so, how do we approach this situation?
  - Qatar has suspended all commercial flights into the country for at least two weeks. Both cargo and transit flights will continue. During this time, only Qatari citizens will be granted entry to the country.
- I have a question about when students go home to countries from which Qatar has restricted travel. If I leave, when would I be able to come back?
  - Travel ban decisions are being made by the Qatari authorities and we do not know when the travel bans will be lifted.
- What happens if the students can't come back for the fall, because of the travel restrictions?
  - Right now, we should all focus on completing this semester. Any decisions made will be based on everyone’s health and safety and we deal with these issues as they arise.
