If you have recently visited any country where cases of the Coronavirus Disease have been reported and have begun developing signs and symptoms of respiratory infections, you should call the MOPH hotline on 16000. You can also visit the MOPH website for the latest information and health advice.

There are several measures which reduce the likelihood of getting or spreading the virus:

- Regularly wash your hands and use alcohol-based hand sanitizers
- Cover your nose and mouth when you sneeze
- Do not share food or drinks
- Avoid close contact with people who have a fever, coughing, sneezing or difficulty breathing
- Keep yourself away from others if you have a fever, coughing, sneezing or difficulty breathing
